 Long distance   
 Near distance

- Compared to its predecessor the wider tread contact surface leads to even higher mileage and greater efficiency
- High-density sipe design ensuring improved traction and braking performance throughout the year - in different types of use and weather conditions
- Deeper tread depth ensuring uniform abrasion and lower quality reduction over the entire product life
- Safe driving experience due to excellent wet braking
- Independent quality assurance of Production process by TÜV Nord
- Sustainable production by selected raw materials
- Regroovable and suitable for cold and hot retreading
